Explanation of Responses:

- The transaction reported represents the sale of shares of Class A common stock to satisfy the Reporting Person's tax withholding obligations in connection with the non-reportable vesting and settlement of restricted stock units.
- The price reported is a weighted average sales price. The shares were sold in multiple transactions at prices ranging from \$224.21 to \$224.67, inclusive. The Reporting Person undertakes to provide to the Issuer, any security holder of the Issuer or the staff of the Securities Exchange Commission, upon request, full information regarding the number of shares sold at each separate price within the ranges set forth in this footnote.
- This does not represent an acquisition or a disposition. On June 11, 2020, each share of the Issuer's Class B common stock automatically converted into one share the Issuer's Class A common stock, which occurred when the outstanding Class B common stock represented less than 10% of the aggregate number of shares of the Issuer's then outstanding Class A common stock and Class B common stock, as set forth in the Issuer's amended and restated certificate of incorporation. Upon the conversion, any outstanding options that were denominated in shares of Class B common stock and issued under any of the Company's equity incentive plans, remained unchanged, except that they now represent the right to receive shares of Class A common stock.
- All shares underlying this option are immediately exercisable, subject to a repurchase right in the Issuer's favor which lapses in accordance with the option's vesting schedule. 113,189 shares are vested. The remaining 86,811 shares shall vest in 10 substantially equal monthly installments beginning on July 13, 2020, subject to the Reporting Person providing continuous service to the Issuer on each such date.
- Immediately exercisable and fully vested.
